2016 SUMMARY OF DOMESTIC VIOLENCE RELATED FATALITIES IN COLORADO

This is a **draft** of the list of domestic violence related fatalities in Colorado in 2016. This information is distributed and available to every person in our state that has an interest in domestic violence prevention. Location information is based on our knowledge of where the fatal incident occurred. We have given due diligence to compiling the most accurate information possible and we welcome feedback from law enforcement, prosecution, victim service and any other agencies, or individuals, statewide to help ensure our research is accurate and complete.

Please forward this document to any and all that may have information or knowledge of a domestic violence related death that we have not listed. As in past years, our numbers may differ from those released by the Colorado Bureau of Investigation due to the fact that we count *all fatalities in the context of domestic violence*, including collateral deaths and suicides. Definitions of the types of fatalities we collect information on are listed below.

As is always the case, we continue to track domestic violence related fatalities that occurred in 2016, and prior years, in Colorado. If you have knowledge of any fatal incidents in your communities that appear to be in the context of domestic violence, please enter the case information at <https://form.jotform.us/71767607578169>.
